I am a results oriented Full Stack Web Developer with 3+ years of experience. I am knowledgeable in many front end and back end languages, frameworks, databases and best code practices. I am constantly working and learning with the simple objective to deliver the best results in any project that I am a part of. I studied physics in college, and I believe that my problem solving, and complex algorithms are also skills that have and will continue to contribute to my overall success as a developer.

Skills
